**MEMORANDUM FOR:** Assistant Director of Current Intelligence

**SUBJECT:** Request for Information [REDACTED]

25X1A9A

1. [REDACTED] OCI requested, on 25 June, that ORR prepare estimates on the capability of the road and trail and sea system for the infiltrating supplies to the Viet Cong, and the effect of the air strikes on this operation. I know you realize the difficulty we have had in providing precise estimates on this perplexing problem for there is very little firm intelligence upon which we can base our judgments. We trust, nevertheless, that the attached paper will be of assistance to OCI.
